

April 11, 2026: On the Modern Attempt to Enslave Us

I have already written before about these practices that I am personally witnessing as being an attempt to create a modern slave class.

Now, I want to elaborate on what I am witnessing in the world to make it very clear that this is a very real problem and it must be addressed as a civil rights movement or we all face serious problems in our collective future.

1) We all already understand the natural gifts that leisure time, money, resources, and connections can provide a person in their life;

2) We all already know about the class of nepotism that exists that favors this person or that person for whatever reasons that justify their personal favoritism;

3) We can all understand that along with the favoritism of allowing one person in for a personal reason that is not justifiable by their own merit - even merit that was created by their own advantages as delineated in number 1, above - also means that another person of merit was 'barred' from that position or otherwise prevented from obtaining it because of a personal, non-meritorious decision; and

Now, I want to further elaborate what this class of criminals is doing from inside of their secret club of Freemasonry:

Not only I am not able to have the advantage of money, resources, connections, and leisure time to train for my careers choices and arts,

BUT, even once I am able to get past all three of the problems above,

4) Their club is also disrupting my ability to have peace in my own home, to learn trades, to learn skills, and to better myself in training to use those skills for public or private benefit; AND

5) Their private club is also sabotaging my ability to do necessary tasks to conduct those trades;

AND TO ABSOLUTELY SEAL THIS AS OUTRIGHT CRIMINAL BEHAVIOR

6) THEY ARE ALSO SPYING ON MY LIFE AND STEALING MY WORK TO THEIR OWN ADVANTAGES!

So, I am discovering and documenting that there is in fact a private club of people that are embedded inside of the government and business community that:

has the inherent advantages of time, money, and connections; favors members of its own club to the detriment of other similarly-qualified candidates; illegally bars out those other similarly-qualified candidates; disrupts peoples' personal abilities to learn, improve, and train themselves; sabotages the improvements that people can and do manage to produce; and finally, spies on and steals those improvements for their own benefit while pushing out their target from being able to earn their own living by their own produce.

YES, THIS IS ATTEMPTED ENSLAVEMENT AGAINST EVERYONE THAT IS NOT IN THEIR PRIVATE CLUB AND THIS MUST BE THE NEW CIVIL RIGHTS MOVEMENT FOR EVERYONE TO EMBRACE - OR WE ALL WILL FACE THE VERY SERIOUS CONSEQUENCES OF IGNORING THESE FACTS TO OUR OWN DETRIMENT.
